Museum for Youth

Since the modern youth section of the Illinois State museum was opened in Springfield recently, the usual "Hey, Mom, what's that mean?" approach of juvenile museum visitors is going out of use. For the new branch has been designed throughout to promote the imagination and to brighten the intellect of boys and girls by presenting natural history displays in a way comprehensible to them. Simple, uncrowded displays in specially made cases, together with simply worded labels, go a long way in this direction.

Smoking Dog

One of the reasons Spokane County Superior Judge Fred Witt would not consider appointment to the Supreme court for which he was recently prominently mentioned was that his wife preferred to remain in Spokane. And one of the reasons that Mrs. Witt preferred to remain in Spokane was that she feared the change of climate might not be good for her 10-year-old pet fox terrier Tiny. Tiny is a fastidious animal in that he cannot start the day, Mrs. Witt says, without a cup of coffee well seasoned with sugar and cream, after which he demands a cigarette.

Alabama Homicides

Homicides are decreasing in Alabama. There were 29 less homicides in the state in 1939 than in 1938, the state health department vital statistics bureau reports.

Grapes For Jelly Days

— By Frances Lee Barton —

THE jelly days are never over until a plentiful supply of grapes has been transformed into jars of luscious jelly — the kind that always goes before winter is over, no matter how many jars we make. Venison jelly (made from grapes) is an ideal gift for that ill friend, or that well one; ideal for the church supper; ideal for the family table.

Venison Jelly
(Using fresh grapes)

4 cups (2 lbs.) juice; 7 cups (7 lbs.) sugar; ⅞ bottle fruit pectin.

To prepare juice, stem about 3 pounds fully ripe grapes and crush thoroughly. Add ½ cup apple vinegar, 1 teaspoon cloves, and 2 teaspoons cinnamon. Bring to a boil, cover, and simmer 10 minutes. Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a *full rolling boil* and boil hard ½ minute. Remove from fire, skim, pour quickly. Paraffin hot jelly at once. Makes about 11 glasses. (6 fluid ounces each).

Cigarette Tax

Revenue stamps attached to cigarette packages yield up to $400,000,000 a year to the United States government.

House of Cotton

The Farm Security administration is conducting experiments in the use of cotton as a building fabric. A house has been erected in Coffee, Ala., with roof and walls covered with cotton duck. The material is nailed to a smooth backing of plywood, plaster or composition board. It is painted with a mixture of white lead and linseed oil. The cost of such a house, including modern plumbing and electric wiring, is only about $1,350.

President Arrested

Ulysses S. Grant was the only President ever arrested during his term of office. He loved fast horses, always had several in the White House stables, and had taken the highest mark for horsemanship in his class at West Point. His record in the high jumps has never been equaled. One day he was driving a spirited team in Washington, exceeded the speed limit, and was arrested by a colored policeman. The President put up a deposit of $20, but never appeared at the police court, and commended the colored policeman for doing his duty.

No Log Cabins

Although most American illustrations picture them in log cabins, the late Harold R. Shurtleff, in the Log Cabin Myth, published by Harvard University Press, states that there were no log cabins in early New England or Virginia. They built frame houses.

Dangerous Firewood

Mrs. L. Marais of Cyferkuil, Western Transvaal, picked up a piece of firewood while lighting her kitchen fire and found to her horror that she had seized a deadly night adder. With great presence of mind, the housewife struck it against the floor and battered it to death.

Vanity Tray

A vanity tray is built into the top of a new bathroom clothes hamper.

It takes lots of

GOOD FOOD

to keep children active

Running, romping children burn up energy so fast that their bodies require constant rebuilding. A substantial breakfast, a tasty, well prepared lunch and a hearty dinner consisting of meat and fresh vegetables is not enough. They also need between-meal snacks, plenty of fresh wholesome milk, fruit in season and even ice cream. Make sure your pantry is well supplied as a guard against malnutrition and subsequent poor health.

Silver Lining

War has a silver lining for $4,000 who were on relief last winter in St. John's, Newfoundland. Its great newsprint and its wood-pulp and mine-prop industries have been revived with the closing of the Baltic. Iron, lead, and zinc mines are again operating, while enlistments in the navy, army and civilian forestry corps have also helped to reduce unemployment.

Florida's Edible Fish

Of the more than 300,000,000 pounds of fish caught in Florida waters annually, little more than one-third are of the edible variety, according to R. L. Dowling, state supervisor of conservation. The non-food fish, mostly menhaden and sharks, are used in the manufacture of fertilizer, oils and novelties, Dowling explained.

Dog Stays On

Frank Brunswith has retired as station agent for the Great Northern railroad here but his faithful dog, Terry, carries on. Terry reaches the station every morning at 7:30 o'clock, meets all passenger trains and then trots to the post office and bank—a routine he followed with his master for years.

Last Word in Television

The new television antenna just completed atop the Chrysler building in New York is the only one of its kind in the world. Built to withstand a 150-mile gale, it consists of four hollow tapered aluminum bars, electrically heated to prevent formation of ice in the winter.

Undaunted Courage?

Pat Hogan of Westwood, Calif., and Muriel Dwyer of Santa Cruz, went to Reno, Nev., to be married. Pat, after getting the license, was knocked down by an auto and his leg was fractured. Undaunted, he had the leg set at a hospital, summoned a clergyman and the marriage was performed on schedule at the bedside.

Low Death Rate

The census bureau notes that the Netherlands had the lowest death rate of any country in the world—until the German invasion. The rate was 8.7 deaths to each 1,000 population. This compared with 11.5 for the United States in 1936.

Hot Handle Holder

Made of a heat insulating, non-absorbent rubber, a holder has been invented to be slipped over the hot handles of cooking utensils.
